Bocconi University | Via Roentgen 1, office 4-D1-18, 20136, Milan, Italy chiara.longoni2@unibocconi.it | http://chiaralongoni.com | Google Scholar

## **ACADEMIC APPOINTMENTS**

2023 - Associate Professor of Marketing, Bocconi University

2016 - 2023 Assistant Professor of Marketing, Boston University, Questrom School of Business

### EDUCATION

Ph.D. Marketing, 2016

Leonard N. Stern School of Business, New York University, USA

M. Phil. Marketing, 2015

Leonard N. Stern School of Business, New York University, USA

M.A. Psychology, Honors, 2011

New York University, USA

B.Sc., M.Sc. Business Administration, Summa Cum Laude, 2005

Bocconi University, Italy

## RESEARCH INTERESTS

Artificial Intelligence, Human-Computer Interaction, Medical Decision Making, Sustainability

### REFEREED ACADEMIC PUBLICATIONS

- Tully, S.\*, Longoni, C.\*, and Appel, G.\* (2025). Lower artificial intelligence literacy predicts greater Al receptivity. *Journal of Marketing* [paper] [data]
  - \* equal authorship
  - · An earlier version of this manuscript is available as part of the Marketing Science Institute Working Paper Series 2024, Report No. 24-132 [link[
  - · Selected media coverage: The less people know about Al, the more they like it, WIRED; Knowing less about Al makes people more open to having it in their lives new research, The Conversation; How to promote Al: make the 'Al illiterate' think it's magic, Pivot to Al; Lower Al literacy often means higher receptivity to Al's, Moneyweb News
  - · Selected public policy and practitioner-focused coverage: <u>Marginal Revolution</u>; <u>The Advertising Research Foundation</u>; <u>Ente Nazionale per l'Intelligenza Artificiale</u>; <u>Neurons</u>
- Zhang, R., Kyung, E., Longoni, C., Cian, L., and Mvkra, K. (2025). Al-Induced Indifference: Unfair Al reduces prosociality. *Cognition*, 254, 1-10 [paper] [data]
- Vlasceanu, M., <u>et al.</u> (2024). The International Climate Psychology Collaboration: Climate change-related data collected from 63 countries. *Nature Scientific Data*, 11, 1066 [paper/data]
- Capraro V., <u>et al.</u> (2024). The impact of generative artificial intelligence on socioeconomic inequalities and policy making. *PNAS Nexus*, 3 (6), 3-18 [paper]

Vlasceanu, M., <u>et al.</u>. (2024). Addressing climate change with behavioral science: A global intervention tournament in 63 countries. *Science Advances*, 10 (6) [website/data] [web app] [paper]

- · Winner of the BSPA Publication Award for Innovation in Behavioral Policy
- · Selected media coverage: How psychology can help people live more climate-friendly lives lessons from around the world, The Conversation; Beyond the doom and gloom, here's how to stimulate climate action, The Scientific American; Psychology study unearths ways to bolster global climate awareness and climate action, Science Daily, other media coverage

Hong, J., Longoni, C., and Morwitz, V. (2024; published online in 2023). Proximity Bias: Motivated effects of spatial distance on probability judgments. *Journal of Consumer Psychology*, 34 (1), 18-34 [paper] [supplemental material]

Azevedo, F. <u>et al</u> (2023). Social and moral psychology of COVID-19 across 69 countries. *Nature Scientific Data*, 10, 272 [paper] [data, code, translations] [data visualization]

Longoni, C., Cian, L., and Kyung, E. J. (2023). Algorithmic Transference: People overgeneralize failures of artificial intelligence in the government. *Journal of Marketing Research*, 60 (1), 170-188 [paper] [supplemental material] [slides]

Longoni, C. and Cian, L. (2022; published online in 2020). Artificial intelligence in utilitarian vs. hedonic contexts: The "Word-of- Machine" effect. *Journal of Marketing*, 86 (1), 91-108 [paper] [supplemental material]

- · Winner of the <u>2021-22 American Marketing Association Consumer Behavior Special Interest Group Researchin-Practice Award</u> for rigorous scholarly research that addresses an important marketing issue
- Comparative impact on scholarship. Recognized as a <u>foundational article on new technologies in marketing</u>; It is <u>the third most cited</u> article in *JM* in 2022; It has received approximately 277 times more citations than the average publication in this field (field citation ratio: 277).
- · Selected media coverage: Al and unintended consequences for human decision making, Psychology Today; When to rely on robots, The Times; Al has yet to break the trust barrier, Forbes; Trust an Al? The science of the word-of-machine effect, Canvas8; When do we trust Al's advice? The Raconteur; Other media coverage
- · Selected practitioner-focused coverage: <u>The Word-of-Machine effect and its impact on data</u> *Diving into Data Podcast;* <u>Whose word would consumers prefer to accept: Human or Al's?</u> <u>ConsumerGateway.org;</u> <u>Recommendations by Al vs. humans: Who will win? Analytics Insight</u> (article <u>here</u>); <u>Taking purchase recommendations from Al over human sales representatives ArchIntel;</u> <u>Al: Ci fidiamo di più del consiglio umano o della macchina?</u> <u>Appy Lab;</u> <u>How consumers respond to Al recommenders Haptic-Feel the Technology</u>

Longoni, C., Fradkin, A., Cian, L., and Pennycook, G. (2022). News from generative artificial intelligence is believed less. *2022 ACM Conference on Fairness, Accountability, and Transparency (FAccT '22)*, 97-106 [paper] [data] [slides (4 min)] [slides (10 min)]

· Selected media coverage: Would you trust news written by an Al? Vox; Can Al replace human work? – ChatGPT examined, Mirage News; Can we trust ChatGPT and artificial intelligence to do humans' work? The Brink

Pavlović, T. et al. (2022). Predicting attitudinal and behavioral responses to COVID-19\_pandemic using machine learning. *PNAS Nexus*, 1(3), 1-15 [paper] [data]

Schweidel, D. <u>et al.</u> (2022). How consumer digital signals are reshaping the customer journey. *Journal of the Academy of Marketing Science*. 50 (6), 1257-1276 [paper]

van Bavel, J. J. <u>et al.</u> (2022). National identity predicts public health support during a global pandemic: Results from 67 countries. *Nature Communications*, 13, 517 [paper] [data]

· Selected media coverage: <u>Social Sciences Best Papers</u>; <u>Nature News</u>; <u>Behavioural & Social Sciences</u>; <u>Psychology Today</u>; <u>The Guardian</u>

Cadario, R., Longoni, C., and Morewedge, C. K. (2021). Understanding, explaining, and utilizing medical artificial intelligence. *Nature Human Behavior*, 5, 1636-1642 [paper] [supplemental material] [data]

- · Lead article
- · Selected media coverage: <u>Eye on A.I. Fortune Magazine</u>; <u>Man & the Machine</u> podcast; <u>L'intelligence</u> artificielle, une (r) évolution plus humaine que technologique, La Tribune

Longoni, C., Bonezzi, A., and Morewedge, C. K. (2020). Resistance to medical artificial intelligence is an attribute in a compensatory decision process: Response to Pezzo and Becksted (2020). *Judgment and Decision Making*, 15 (3), 446-448 [paper]

\*Cian, L., \*Longoni, C., and \*Krishna, A. (2020). Advertising a desired change: When and why process simulation fosters (vs. hinders) credibility and persuasion. *Journal of Marketing Research*, 57 (3), 489-508 [paper] [supplemental material]

- \* equal authorship
- · Finalist for the 2021 Wells Fargo Award for Excellence in Research (University of Virginia)
- · Independent replication by Data Colada

· Selected media coverage: here

Longoni, C., Bonezzi, A., and Morewedge, C. K. (2019). Resistance to medical artificial intelligence. *Journal of Consumer Research*, 46 (4), 629-650 [paper] [supplemental material]

- · Winner of the 2022 Journal of Consumer Research Best Article Award
- · Comparative impact on scholarship. One of the <u>most cited, most read, and most discussed</u> high-impact articles in this outlet; It is the <u>most cited article</u> across all articles in *JCR* in the last five years in terms of Google Scholar citations; #14 in the all time top 50 most cited articles on Al in business, management, and social science journals; Web of Science placed this article in the <u>top 1% of all publications</u> in Business & Economics for citations; It has received approximately 277 times more citations than the average publication in this field (<u>field citation ratio: 277</u>); Recognized as one of five <u>foundational articles on digital technology</u> and on <u>medical decision making</u>.
- · Impact on scholarship in medicine. Cited as foundational research on medical Al by medical journals including: The Lancet; The New England Journal of Medicine; The British Medical Journal; Nature Portfolio Digital Medicine; The American Journal of Bioethics; The International Journal of Cardiology; The Journal of Pediatrics; BMC Medical Informatics and Decision Making
- · Impact on policy making and practice. Featured in institutional documents, articles, podcasts, and publications discussing medical AI from the perspective of policy making and practice. A selected list of institutional and practitioner-focused outlets that covered this article include, but is not limited to: <u>U.K. Parliament Briefing on AI and Healthcare</u>; <u>MIT Sloan Review</u>; <u>Observer Research Foundation</u>; <u>Intensive Care Medicine</u>; <u>American Hospital Association</u>; <u>AI in Medicine</u>; <u>Infermedica</u>; <u>Med City News</u>; <u>American Association of Neurological Surgeons</u>; <u>European Urology Focus</u>; <u>The Royal College of Radiologists</u>; <u>BMJ Health & Care Informatics</u>; <u>Intellectual Property Law & Technology Program</u>; <u>Man & Machine Podcast</u>.

Longoni, C. Gollwitzer, P., and Oettingen, G. (2014). A green paradox: Validating green choices has ironic effects on behavior, cognition, and perception. *Journal of Experimental Social Psychology*, 50, 158-165. [paper]

## MANUSCRIPTS UNDER REVIEW & SELECTED WORK IN PROGRESS

Plagiarizing Al-generated content is seen as less unethical and more permissible, with Tully, S., and Shariff, A. [paper] [data]

Beyond the black mirror: An attributional model of how Al interactions influence the human experience, with Zhang, R., and Kyung, E.

Hearing is believing, with Liu, Y., and Munz, K.

"AI-ness," with Tully, S., and Cian, L.

Knowing less about AI makes people more open to having it in their lives – new research *The Conversation*, 2025 [Link]

Unfair decisions by AI could make us indifferent to bad behaviour by humans *The Conversation*, 2024 [Link]

Generative AI at school, work and the hospital – the risks and rewards laid bare *The Conversation*, 2024 [Link]

How psychology can help people live more climate-friendly lives – lessons from around the world *The Conversation*, 2024 [Link]

Can we trust machines doing the news? 360info.org, 2023 [Link]

Do people believe generative AI? Insights@Questrom, 2023 [Link]

For patients to trust medical AI, they need to understand it. Harvard Business Review, 2021 [Link]

When do we trust Al's recommendations more than people's? Harvard Business Review, 2020 [Link]

Al can outperform doctors. So why don't patients trust It? Harvard Business Review, 2019 [Link]

# ACADEMIC HONORS, AWARDS, & GRANTS

- 2024 2024-25 & 2025-26 Research Profile, Bocconi University
- 2023 Marketing Science Institute Young Scholar

<u>The MSI Young Scholars Program</u> recognizes a selected number of promising scholars worldwide and across marketing disciplines whose work suggests they are potential leaders of the next generation of marketing academics

- 2022 Journal of Consumer Research Best Article Award for the article "Resistance to medical artificial intelligence"
  - This <u>award</u> recognizes the article published three calendar years prior to the award year that has made the greatest contribution to knowledge about consumer behavior
- 2022 Dean's Scholar, Questrom School of Business, Boston University
  - This school-wide honorary title recognizes faculty with outstanding research performance over the previous three-year period and strong future research potential
- 2022 Research Fellow, Digital Business Institute, Questrom School of Business, Boston University
- 2022 Research Grant, Batten Institute for Entrepreneurship and Innovation, University of Virginia (\$20,000)
- 2021 2021-22 American Marketing Association Consumer Behavior Special Interest Group Research in-Practice Award for the article "Artificial intelligence in utilitarian vs. hedonic contexts: The "Word-of- Machine" effect"

This <u>award</u> recognizes a scholarly research article that contributes significantly to marketing practice. The winning article must meet the following criteria: Rigorous scholarly research; Addresses an important marketing managerial issue; An explicit objective of contributing to marketing practice; Strong and compelling marketing implications; Potential applicability across a range of products, services, and/or industries

- 2021 Research Grant, Batten Institute for Entrepreneurship and Innovation, University of Virginia (\$20,000)
- 2016 Class representative, Stern School of Business, New York University
- 2016 Joseph H. Taggart Fellowship, Stern School of Business, New York University
- 2015 Doctoral Consortium Fellow, American Marketing Association Sheth Foundation
- 2011-15 Doctoral Fellowship, Stern School of Business, New York University
- 2014 Commendation for Teaching Excellence, Stern School of Business, New York University
- 2011 Honors Scholar, Graduate School of Arts and Sciences, New York University
- 2005 Summa Cum Laude Graduate, Bocconi University

# REFERED CONFERENCE PRESENTATIONS

### 2025

Tully, S., Longoni, C., and Appel, G. Lower artificial intelligence literacy predicts greater AI receptivity. *Society for Consumer Psychology*, Las Vegas, USA, February.

Liu, Y., Munz, K., and Longoni, C. Hearing is believing. *Society for Consumer Psychology*, Las Vegas, USA, February.

Zhang, R., Kyung, E., Cian, L., and Mvkra, K.. Al-Induced Indifference: Unfair Al reduces prosociality, *Society for Consumer Psychology*, Las Vegas, USA, February.

### 2024

Zhang, R., Kyung, E., Cian, L., and Mvkra, K.. Al-Induced Indifference: Unfair Al reduces prosociality, *Association for Consumer Research*, Paris, France, September.

Tully, S., Longoni, C., and Appel, G. Lower artificial intelligence literacy predicts greater Al receptivity. *Association for Consumer Research*, Paris, France, September.

Longoni, C., Tully, S., and Shariff, A. Plagiarizing Al-generated content is seen as less unethical and more permissible. *Society for Consumer Psychology*, Nashville, USA, March.

#### 2022

Longoni, C. Cian, L., and Kyung, E. J. Al in the government: Responses to failures. *Association for Consumer Research*, Denver, CO, October.

Longoni, C. Cian, L., and Kyung, E. J. Al in the government: Responses to failures and social impact. 2022 ACM Conference on Artificial Intelligence, Ethics, and Society, Oxford, United Kingdom, August.

Longoni, C., Cian, L., and Kyung, E. J. Artificial Intelligence in the public sector. *Association for Consumer Research*, virtual conference, October.

Longoni, C., Tari, A. and Trudel, R. Transparent green prices boost perceptions of price fairness. *Association for Consumer Research*, virtual conference, October.

Longoni, C. and Cian, L. Artificial Intelligence in hedonic and utilitarian contexts: the Word-of-Machine effect. *Society for Consumer Psychology*, virtual conference, March.

### 2020

Hong, S. K., Longoni C., and Morwitz, V. The effect of mere physical distance on wishful thinking: How proximity and valence interactively affect probability judgments. *Association for Consumer Research*, virtual conference (Paris), France, October.

Longoni, C., Tarì, A., and Trudel, R. Transparent green prices boost perceptions of price fairness. *Association for Consumer Research*, virtual conference (Paris), October.

Longoni, C. and Cian, L. Word-of-Machine: Artificial Intelligent recommenders shift hedonic and utilitarian trade-offs across the consumer journey. *Society for Consumer Psychology*, Sacramento, USA, March.

Longoni, C., Tarì, A., and Trudel, R. Transparent green prices boost perceptions of price fairness. *Society for Consumer Psychology*, Sacramento, USA, March.

### 2019

Cian, L., Longoni C., and Krishna A. Advertising a desired change. *Association for Consumer Research*, Atlanta, USA, October.

Longoni, C., Bonezzi, A., and Morewedge, C. K. Consumer receptivity to medical Artificial Intelligence. *INFORMS Marketing Science*, Rome, Italy, June.

Longoni, C., Tarì, A., and Trudel, R. Transparent green prices boost perceptions of price fairness. *Marketing and Public Policy Conference*, Washington, USA, June.

Hong, S. K., Longoni C., and Morwitz, V. Proximity bias: Interactive effects of event valence and event nearness on probability estimates. *Winter AMA*, Austin, USA, February.

## 2018

Longoni, C., Bonezzi, A. and Morewedge, C. K. Artificial Intelligence and medical decision making. *Society for Judgment and Decision Making*, New Orleans, USA, November.

Hong, S. K., Longoni C., and Morwitz, V. Proximity bias: Interactive effects of event valence and event nearness on probability estimates. *Society for Judgment and Decision Making*, New Orleans, USA, November.

Cian, L., Longoni C., and Krishna, A. Communicating a promise of change: Visual steps enhance process imagery. *Association for Consumer Research*, Dallas, USA, October.

Hong, S. K., Longoni C., and Morwitz, V. Proximity bias: Interactive effects of event valence and event nearness on probability estimates. *Association for Consumer Research*, Dallas, USA, October.

Longoni, C., Bonezzi, A., and Morewedge, C. K. Consumer reluctance toward medical Artificial Intelligence: The underlying role of uniqueness neglect. *Association for Consumer Research*, Dallas, USA, October.

Longoni, C., Bonezzi, A., and Morewedge, C. K. Artificial Intelligence and medical decision making. *Behavioral Decision Research and Management*, Boston, USA, June.

Hong, S. K., Longoni C., and Morwitz, V. Proximity bias: Interactive effects of event valence and event nearness on probability estimates. *Society for Consumer Psychology*, Dallas, USA, February.

### 2017

Cian, L., Longoni, C., and Krishna, A. Communicating a promise of change: Visual steps enhance process imagery. *Association for Consumer Research*, San Diego, USA, October.

Longoni, C. and Menon, G. Asymmetry in emotion language Is consequential on evaluative judgments. *Association for Consumer Research*, San Diego, USA, October.

#### 2016

Longoni, C. and Menon, G. Asymmetry in emotion language Is consequential on evaluative judgments. *Society for Judgment and Decision Making*, Boston, USA, November.

Hong, S. K., Longoni, C. and Morwitz, V. Proximity Bias: Interactive effects of event valence and event nearness on probability estimates. *Society for Judgment and Decision Making*, Boston, USA, November.

### 2015

Longoni C., and Menon, G. Motivated hypochondriacs: Disease labels shape health perceptions. *Society for Consumer Psychology*, Phoenix, USA, February.

## 2014

Longoni, C., Gollwitzer, P. and Oettingen G. A green paradox: Validating green choices has ironic effects on behavior, cognition, and perception. *Society for Personality and Social Psychology*, Austin, USA, February.

## 2013

Longoni, C., Gollwitzer, P. and Oettingen, G. A Green Paradox: Validating green choices has ironic effects on behavior, cognition, and perception. *Marketing Department Seminar Series*, Leonard N. Stern School of Business, New York University, NY, USA.

#### 2012

Longoni, C., Gollwitzer, P. and Oettingen, G. A Green Paradox: Validating green choices has ironic effects on behavior, cognition, and perception. *Colloquium*, Psychology Department, New York University, New York, USA.

Longoni, C., Gollwitzer, P. and Oettingen, G. A Green Paradox: Validating green choices has ironic effects on behavior, cognition, and perception. *Self-regulation Conference*. New York, USA.

## REFEREED CHAIRED SYMPOSIA

Consumer-technology interaction. Association for Consumer Research, virtual conference, October 2021.

Artificial intelligence in marketing and beyond: Interdisciplinary perspectives on the social impact of Al. *Association for Consumer Research*, virtual conference, October 2021.

Consumer responses to algorithmic decision systems. *Society for Consumer Psychology*, virtual conference, March 2021.

Perspectives on consumer trust in artificial intelligence. *Association for Consumer Research*, Dallas, USA, October 2018.

How artificial intelligence is changing consumer psychology. *Society for Consumer Psychology*, Dallas, USA, February 2018.

Good health is in the eye of the beholder: Helping consumers navigating health-related decisions. *Association for Consumer Research*, Baltimore, USA, October 2014.

# INVITED ACADEMIC PRESENTATIONS (AFTER 2016)

University of Bologna, Artificial Intelligence in Management (AIM) seminar series, Management Department, Bologna, Italy, November 2024

HEC, Marketing Research Camp, Paris, France, November 2024

Vrije Universiteit Amsterdam, School of Business and Economics, Amsterdam, The Netherland, October 2024
